

Presented by: Genetics

Genetic Determinants of Sudden Unexpected Death in Pediatrics

5/24/2022 10:15:00 AM – 11:15:00 AM | Zoom

Participants will learn the latest clinical and molecular advances in human genetics. The participants will learn to recognize abnormal molecular, cytogenetics and biochemical laboratory test results. The participant will learn the clinical management of biochemical and storage disorders. The participant will recognize key dysmorphic features that define individual syndromes.

Texting code for today's session: 29224

via Zoom

Meeting ID: 92732690431

Zoom passcode: 941427

Faculty:

Curt Scharfe, MD, PhD
Associate Professor
Yale School of Medicine

Program Goal:

- 1 Understanding the problem of Sudden unexpected infant death
- 2 Review of genetic contributions to sudden unexpected death in pediatrics
- 3 Consideration for comprehensive genetic evaluation as part of diagnostic workups

Target Audience: Cardiovascular Disease, Endocrinology, Gastroenterology, Internal Medicine, Neurology, Nutrition, Ob/Gyn, Oncology, Ophthalmology, Pediatrics, Urology, Multiple Specialties, Pathology, Otolaryngology, Orthopedic, Surgery / Transplant, Digestive Diseases, Vascular Medicine, Pulmonology, Hematology

Planners for this activity: Yong-hui Jiang, MD/DO and James Long

Financial Disclosure Information:

None of the faculty/planners for this educational activity have relevant financial relationship(s) to disclose with ineligible companies.

Accreditation Statement: Yale School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

*Designation Statement: Yale School of Medicine designates this Live Activity for a maximum of **1.00 AMA PRA Category 1 Credit(s)**[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.*
