

Yale SCHOOL OF MEDICINE  
GENETICS DEPARTMENT SEMINAR SERIES

# Of Hungry Genes and African Dreams

Recent reports have highlighted the lack of diversity among genomic studies, particularly among populations of African ancestry, who harbor an abundance of genomic diversity and specific clinical phenotypes. Here I intend to discuss new studies shedding light upon the African Genome, and use our studies of severe childhood malnutrition to illustrate the inherent challenges and opportunities.

## **Dr. Neil Hanchard, MD, PhD**

Director, Laboratory for Translational Genomics  
ARS/USDA Children's Nutrition Research Center  
Baylor College of Medicine

### **Host: Dr. Yong-hui Jiang, MD, PhD**

Chief of Medical Genetics  
YSM Department of Genetics

**Tuesday, November 3, 2020**

11:30am - 12:30pm
