Quality and Outcomes Research in Head and Neck Cancer: From Bench to Bedside with Yale Leading the Charge

Saral Mehra, MD, MBA, FACS
Associate Professor of Surgery, Chief Head and Neck Surgery, Yale University School of Medicine

Needs: There have been significant advances in the quality of care research in Head and Neck cancer, and this has become a major focus on H&N cancer societies throughout the country. The focus on quality in H&N cancer can be applied to other disease sites, and is quite generalizable. Stakeholders in the cancer center need to understand what quality H&N cancer care looks like, how we are doing at Yale and across the country, and think about areas for improvement.

There is No Corporate Support for These Activities. Accreditation: The Yale School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.
