The Unchecked Power of the Purse
How Global Health Financing Sustains Inequity

Dr. Bernice Dahn
Vice President for Health Sciences at the University of Liberia and former Minister of Health for the Republic of Liberia

Dr. Bernice Dahn has more than 20 years of experience as a public health physician, policy-maker, administrator, and educator. During her time as Minister of Health of the Republic of Liberia (2015-2018) and eight-year tenure as Chief Medical Officer / Deputy Minister for Health Services, Dr. Dahn led the re-establishment of the Ministry of Health and the rebuilding of Liberia’s post-conflict health care delivery system. She also coordinated the country’s national response to the 2014-15 Ebola epidemic and led efforts to restore routine service delivery in the wake of the outbreak.

In this talk, Dr. Dahn will draw from these experiences to discuss the politics and inequities of global health financing, challenges in managing donor funds effectively, and her longtime advocacy for mutual transparency and accountability in aid and development relationships.

Wednesday, April 10, 2019
4:30 PM–6:00 PM
Sterling Memorial Library, Lecture Hall
120 High Street, New Haven

The event is free and open to the general public
Reception to follow
