

Smilow Shares

Join Sanjay Aneja, MD, physician scientist at Yale Cancer Center and Smilow Cancer Hospital, for an informative seminar that explores how doctors can use artificial intelligence (AI) to discover patterns in medical scans that can predict how cancers will behave, analyze patient voice recordings to better understand symptoms and quality of life, and how AI can help doctors match patients to the most appropriate clinical trials for cancer.

Thursday, June 11 at 7:00pm at The Westport Library | [Register](#)

AI in Cancer Treatment

Sanjay Aneja, MD

Assistant Professor of Therapeutic Radiology

Director of Clinical Informatics

Yale Cancer Center and Smilow Cancer Hospital
