“Are Governments and Donors Failing Key HIV Populations? What Does the Evidence Say?”

Overview

Presentation abstract is forthcoming.

Robert Hecht, PhD

- **Professor of Clinical Epidemiology, Yale School of Public Health**
- **Founder and President, Pharos Global Health Advisors**

Dr. Hecht joined Yale College faculty in 2014 as a lecturer at the Jackson Institute for Global Affairs, where he continues to teach a senior global health capstone course. In 2017, Dr. Hecht was appointed as a clinical professor at the Yale School of Public Health and has since instructed a course for second-year MPH students on improving health reform and health system management, organization, and financing in low and middle-income countries. Concurrently, Dr. Robert Hecht is the President of Pharos Global Health Advisors. He has more than 30 years of experience in global health, nutrition and development, in senior management positions with the World Bank, UNAIDS, the International AIDS Vaccine Initiative and Results for Development. Rob is a widely recognized thought leader and policy analyst with a strong track record of advice to top decision makers and dozens of publications related to immunization, HIV, health financing, health sector reform, and nutrition.

Claire Young, MPH

- **Associate Program Officer, Pharos Global Health Advisors**

Claire Young works on global health research, infectious disease epidemiology, and program strategy and implementation. She has worked with the Global Fund, UNICEF's Division of Data, Analysis, Planning & Monitoring, Médecins Sans Frontières, and Centers for Disease Control on improving cost effectiveness and equity of grant allocation, HIV and Maternal and Child Health data analysis, improving vaccine access in conflict zones and establishing communicable disease surveillance systems respectively. Additionally, she has conducted fieldwork in Brazil, Burkina Faso, Kenya, and South Africa. Claire obtained an MPH in Epidemiology of Microbial Diseases from Yale School of Public Health and a BA in Global Affairs and Global Health Studies from Yale University.
