

Yale SCHOOL OF PUBLIC HEALTH
Chronic Disease Epidemiology

**Seminar in Chronic Disease Epidemiology
CDE 525A**

Mary C. Playdon, Ph.D., M.P.H.
Assistant Professor
Nutrition and Integrative Physiology
University of Utah

Investigator, Division of Cancer Population Sciences
Huntsman Cancer Institute

presents

“I Know What You Ate Last Summer”

The relationship of diet with diseases like cancer has been controversial, partly because diet is difficult to measure, and partly because it has been difficult to establish the metabolic links between them on a large-scale. Dr. Playdon will describe how researchers can now measure what you ate in the past hours, days or weeks with a tiny drop of blood using metabolomics, which can also help to decipher how diet impacts human metabolism to drive diseases like cancer.

**Tuesday, November 10, 2020
12:00-1:00pm**

Required for 1st year CDE students

All CDE students & faculty are welcome to attend

Join from PC, Mac, Linux, iOS or Android:
