

Yale SCHOOL OF PUBLIC HEALTH

Department of Biostatistics & Center for Methods in Implementation
and Prevention Science ([CMIPS](#))

Statistics and Mathematics majors, thinking of applying to graduate school?

The Department of Biostatistics at the Yale School of Public Health offers two pathways toward the MS and PhD degrees: the Standard Pathway and the new Implementation Science and Prevention Methods Pathway.

In this presentation, we will talk about these different degree programs, including requirements, life as a graduate student in New Haven, career opportunities, and more. We will conclude with a discussion and then open the floor to questions.
