

# HTI Virtual Symposium Via Zoom Tuesday, April 13, 2021

#### 12:50-1:00 Welcome: Jordan Pober, MD, PhD

Director, Human & Translational Immunology Program; Bayer Professor of Translational Medicine; Vice-Chair, Dept. of Immunobiology

#### 1:00-2:50 SESSION I – Chaired by Stephanie Eisenbarth

### 1:00-1:25 Understanding signatures of inflammatory and infectious disease with data geometry and topology

Smita Krishnaswamy, PhD

Associate Professor of Genetics and of Computer Science

#### 1:25-1:50 Prevention, Delay, and Treatment of Type 1 diabetes: Has the time come?

Kevan Herold, MD

C.N.H. Long Professor of Immunobiology and of Medicine (Endocrinology)

1:50-2:50

#### **Keynote Address:**

The adjuvant within: initiating immunity to the microbiota

Yasmine Belkaid, PhD

Chief, Metaorganism Immunity Section National Institute of Allergy and Infectious Diseases, National Institutes of Health

2:50-3:00 BREAK

#### 3:00-4:50 SESSION II – Chaired by Ellen Foxman

## 3:00-3:25 A key transcriptional regulator of inflammation elucidated by early-onset autoinflammatory disease

Carrie Lucas, PhD

Assistant Professor of Immunobiology

#### 3:25-3:50 Central B cell tolerance relies on innate immune recognition

Eric Meffre, PhD

Associate Professor of Immunobiology and of Medicine (Immunology)

3:50-4:50

#### **Keynote Address:**

Reprogramming Human T Cells with CRISPR

Alexander Marson, MD, PhD

Associate Professor, Departments of Microbiology/Immunology and Medicine University of California, San Francisco

4:50-5:00 Wrap-up / Closing Remarks: Jordan Pober, MD, PhD

5:00-6:00 Social Hour
