Dr. Marcella Nunez-Smith's research focuses on promoting health and healthcare equity for structurally marginalized populations with an emphasis on centering community engagement, supporting healthcare workforce diversity and development, developing patient reported measurements of healthcare quality, and identifying regional strategies to reduce the global burden of non-communicable diseases. She has extensive expertise in examining the effects of social and structural determinants of health, systemic influences contributing to health disparities, health equity improvement, and community-academic partnered scholarship. Since 2021, Dr. Nunez-Smith has served as Chair of the White House's COVID-19 Health Equity Task Force.
