Shruti Mehta, PhD
Professor and Deputy Chair
Department of Epidemiology
Johns Hopkins Bloomberg School of Public Health

“Hepatitis C virus among PWID in India: The path to elimination”

The WHO has called for elimination of hepatitis C as a public health problem by 2030. In order to achieve this ambitious goal, all populations infected with hepatitis C including people who inject drugs need to be reached and treated. Dr. Mehta will describe ongoing research activities among PWID that aim to identify and overcome barriers to HCV elimination among PWID in India

12:00 PM Thursday, February 27, 2020
47 College Street, Room 106B
Host: A. Ko/A. Bei
