Bottom-up reconstitution of focal adhesion machinery

By combining biochemistry, biophysics and structural biology (cryo-EM) methods, we aim to build up a machinery that mimics cell adhesion and migration.

Monday, May 17, 2021

Presented via Zoom 93691114417

Full instructions in department email

4:00 Seminar

Host: Charles Sindelar

Supported by the Mrs. Hepsa Ely Silliman Memorial Fund
