

## **JESSE SCHOLD, PHD, MSTAT, MED**

Dr. Jesse Schold, PhD, M.Stat., M.Ed. is a Visiting Professor in Surgery-Transplant at the University of Colorado Health Anschutz Medical Campus. He received his undergraduate training at Emory University, two Masters degrees at North Carolina State University, and a Doctorate at the University of Florida.

Dr. Schold's research interests include large database analyses, quality metrics for healthcare providers, health services research, disparities in access to healthcare, and statistical and epidemiological methods. He has previously overseen outcomes monitoring and quality evaluation of the solid organ transplantation programs at the Cleveland Clinic and had a special interest in the development and use of report cards for evaluating the quality of transplant programs.

Dr. Schold has authored over 175 peer-reviewed scientific publications with a primary focus on the field of organ transplantation. He has served on numerous national committees including the SRTR Scientific Technical-Advisory Committee, the OPTN Data and COIIN Advisory Committees, the AST Kidney-Pancreas and Education Committees, and as an NIH Study Section Reviewer. Dr. Schold is currently a Statistical Editor for the *American Journal of Transplantation*. Dr. Schold has been a co-investigator on multiple studies from the National Institutes of Health, Health Services and Resource Administration, and the Centers for Disease Control and Prevention. He has given over 100 invited national and international lectures and peer-reviewed abstract presentations at scientific conferences.

In addition to these roles, Dr. Schold serves as a professor in the Department of Epidemiology at the Colorado School of Public Health at the CU Anschutz Medical Campus.
