

## Geriatric Grand Rounds

*Presented by: Yale School of Medicine's Section of Geriatrics*

### **New onset delirium and seizures in the hospitalized older adult**

**9/14/2021 4:00:00 PM–5:00:00 PM | Online**

Monthly Grand Rounds for Yale Geriatrics

#### **Faculty:**

Ognen Petroff, MD, FAAN, FACNS, FAES, FANA  
Associate Professor of Neurology  
Yale University School of Medicine

**Host: James M. Lai, MD**

**Texting code for today's session: 29178**

**TEXT code to 203-442-9435 within 15 minutes prior to, during, or 15 minutes after the meeting**

#### **Program Goal:**

- 1 Demonstrate a systematic approach to a patient with altered mental status, to develop an understanding of when to initiate a more advanced and potentially more resource-intensive diagnostic workup.
- 2 State key features of different spell types encountered in the hospital in order to create an appropriate differential diagnosis to guide diagnostic evaluation.
- 3 Delirium is an acute to subacute-onset impairment in cognitive and other psychiatric functions due to central nervous system (CNS) or systemic disturbances. We will review an approach to the patient with delirium with a focus on routine attended audio-visual EEG and long-term multimodal audio-visual EEG monitoring.

**Target Audience:** Geriatric Medicine

#### *Financial Disclosure Information:*

*Accreditation Statement: Yale School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.*

*Designation Statement: Yale School of Medicine designates this Live Activity for a maximum of **1.00 AMA PRA Category 1 Credit(s)**<sup>™</sup>. Physicians should only claim credit commensurate with the extent of their participation in the activity.*
