  2. Role of MRI in imaging of Dementia
  3. Present and future of Neuroimaging in patients with Dementia
- And
1. Understand the value of FDG PET for dementia.
  2. Understand the values of Amyloid and Tau PET for dementia
  3. Understand the value of DAT SPECT for dopaminergic deficit

### **FACULTY DISCLOSURES**

Amit Mahajan: None

Ming-Kai Chen: None

James Lai: None

It is the policy of Yale School of Medicine, Continuing Medical Education, to ensure balance, independence, objectivity and scientific rigor in all its educational programs. All faculty participating as speakers in these programs are required to disclose any relevant financial relationship(s) they (or spouse or partner) have with a commercial interest that benefits the individual in any financial amount that has occurred within the past 12 months; and the opportunity to affect the content of CME about the products or services of the commercial interests. The Center for Continuing Medical Education will ensure that any conflicts of interest are resolved before the educational activity occurs.
