NEEDS ASSESSMENT

Lower gastrointestinal malignancies are common and often require multidisciplinary coordination and treatment to maximize outcomes. Considering the rapidly evolving nature of oncology, clinicians need to remain up to date with current advances in order to deliver the highest quality care. This course will discuss the role of radiotherapy for gastrointestinal malignancies, current standards of practice, and introduce recent literature which has advanced the field.

LEARNING OBJECTIVES

At the conclusion of this activity, participants will be able to:

1. To describe the role of radiotherapy in the curative management of lower gastrointestinal malignancies.
2. To understand current standards of care for gastrointestinal malignancies.
3. To assess ongoing areas of clinical research for gastrointestinal malignancies.

DESIGNATION STATEMENT

The Yale School of Medicine designates this live activity for 1 AMA PRA Category 1 Credit(s)TM. Physicians should only claim the credit commensurate with the extent of their participation in the activity.
