***There is no corporate support for this activity***

This course will fulfill the licensure requirement set forth by the State of Connecticut

### **LEARNING OBJECTIVES**

At the conclusion of this activity, participants will be able to:

1. Identify the short and long term benefits of HOLEP compared to other procedures.
2. Determine the indications for HOLEP and same day surgery.
3. Understand the learning curve for HOLEP in learners with and without endoscopic experience.

### **DISCLOSURES**

**Amy Krambeck, MD:** Boston Scientific, Consultant-Research/ Lumenis, Consultant-Research/ Ambu, Consultant/ Virtuoso, Consultant/ Sonomotion, Consultant

**Daniel Kellner, MD, Course Director:** None

### **ACCREDITATION**

The Yale School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

### **NEEDS ASSESSMENT**

Although >80% of men by age 80 required intervention for BPH, <3% of all prostate surgeries are HOLEP or other enucleative procedures. There is a deficit in fund of knowledge of practicing Urologists with regards to the short and long term benefits of HOLEP as well as the equipment and learning curve.
