YALE SCHOOL OF MEDICINE CONFERENCE

This conference is being held at The Anlyan Center for Medical Research and Education,
1st Floor Auditorium, 300 Cedar Street, New Haven, CT.

Asthma affects over 300 million individuals worldwide making it one of the most prevalent chronic diseases. Changes in our understanding of disease pathogenesis has led to advances in the evaluation of patients in the clinic and therapeutic options that range from novel inhaled, oral, and injectable therapies to procedures that target abnormalities in the airway. This symposium will review the recent advances on our understanding of the pathobiology of asthma (and COPD) and state of the art treatments to these diseases.
