

DEPARTMENT OF GENETICS SYMPOSIUM 1

TUESDAY, JANUARY 14TH, 2020
9AM-2:45PM

FURQAN FAZAL

STANFORD UNIVERSITY

“Revealing Principles of Subcellular RNA Localization”

BERNA SOZEN

CALIFORNIA INSTITUTE OF TECHNOLOGY

“Building the mammalian embryo: modelling early development and disease with stem cells in vitro”

MICHELLE CHAN

UNIVERSITY OF CALIFORNIA, SAN FRANCISCO

“Molecular Recording of Mammalian Embryogenesis”

SHASHA CHONG

UNIVERSITY OF CALIFORNIA, BERKELEY

“Illuminating the dark proteome that regulates gene transcription by live-cell single-molecule imaging”

JUNYUE CAO

UNIVERSITY OF WASHINGTON

“Global, organism-scale views of cell state heterogeneity & dynamics via novel single cell profiling techniques”

Yale
