Course Director/Host: Daniel Kellner, MD

There is no corporate support for this activity

This course will fulfill the licensure requirement set forth by the State of Connecticut

LEARNING OBJECTIVES

At the conclusion of this activity, participants will be able to:

1. Identify a relationship between health care pollution and disease burden
2. Define Life Cycle Analysis (LCA)
3. Summarize latest health care pollution findings
4. Identify opportunities for mitigation

NEEDS ASSESSMENT

Healthcare is a significant source of environmental emissions that are harmful to human health and contribute to climate change. A knowledge gap exists as to 1) how significant healthcare pollution is, 2) the urgency or required response, and 3) what mitigation opportunities exist to make healthcare safer for planetary health.

DISCLOSURES
