Antonio Omuro, MD  
Professor of Neurology; Chief, Neuro-Oncology; Director, Chênevert Family Brain Tumor Center

**Clinical Research Opportunities in Brain Tumors**

**Needs:** New therapeutic options for brain tumor are needed and many ongoing clinical trials are exploring novel therapeutic strategies with potential applications in other tumors.

**Objectives:** Review state of treatments for brain tumors and novel mechanisms of action that can be exploited to treat brain tumor and other malignancies.

Seth Herzon, PhD  
Milton Harris ’29 PhD Professor of Chemistry; Professor of Pharmacology

**Molecular basis of gut microbiome-associated carcinogenesis**

**Needs:** Understand the latest information on the microbiome and colorectal cancer.

**Objectives:** Discuss how gut bacteria cause colorectal cancer and the mechanism of gut bacteria genotoxicity.
