Event Log Report

Get a blow by blow account of what has happened to your patient during their inpatient admission by using the Event Log report. You can view flowsheet information, medication administration, note entry, patient movements, and more in this comprehensive report.

1

GO TO SUMMARY

If you cannot find "Event Log" in the toolbar you will need to add this report.

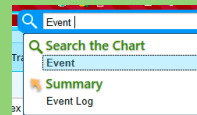

2

CLICK THE WRENCH ICON

Type "Event Log" to add this report to your toolbar. Use the up/down arrows to organize your toolbar.

3

OR USE CHART SEARCH

The "Event Log" report can also be found by typing "Event Log" in chart search.

Iconology

Care Everywhere

Quickly review outside records by clicking this icon in StoryBoard.

Provider Pulse

Click to find out your Epic efficiency scores and watch curated "Here's How" videos to improve your score! Find this icon near the Epic logout button.

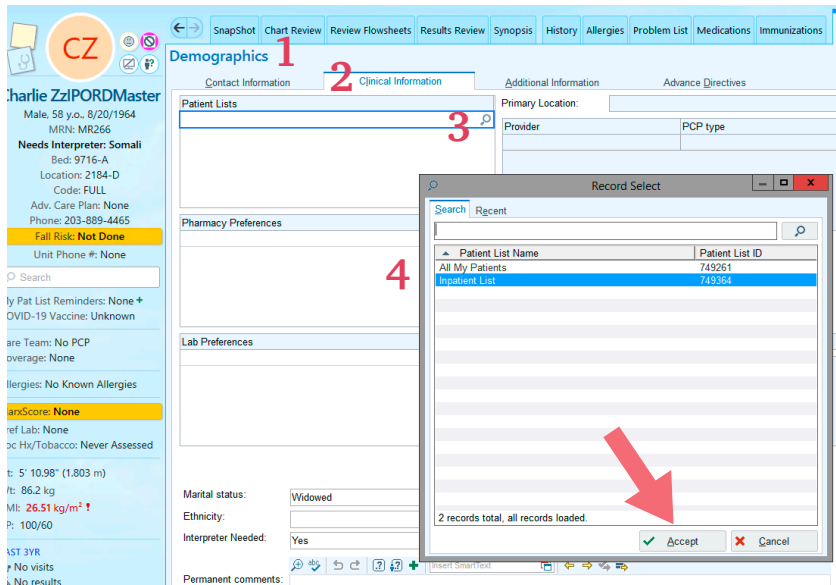

Mail

Appears in Storyboard when there are In Basket messages available for a patient.

Check out
epic.ynhh.org

How do you add a patient to a patient list from the chart? It's easy!

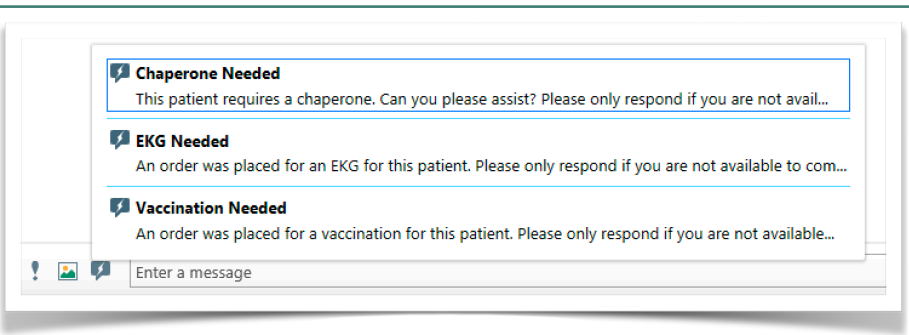

1. Go to "Demographics"
2. Click the "Clinical Information" tab
3. Click the magnifying glass under "Patient Lists"
4. Choose the appropriate patient list and click accept

These Secure Chat Message templates are now available!

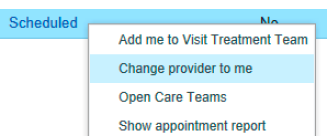

Click 

then choose the message you want!

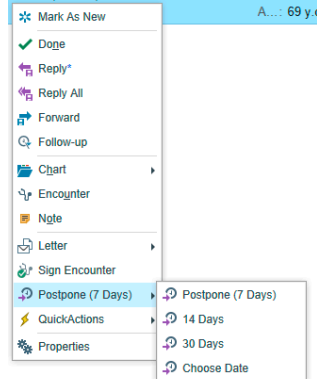

Discover what you can do with a "Right Click":

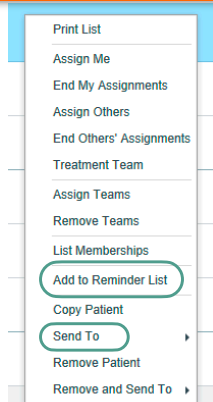

Right click on a patient's name when in your clinic's schedule to change the provider to yourself

Right click on an In Basket message to postpone a message

Right click on a patient in a patient list to easily add to a reminder list or send to another list

Epic Efficiency Hour is Back!
This is a CME eligible, Epic produced webinar discussing various efficiency topics. For more information, check out: <https://www.epicearth.com/Home/EfficiencyHour>
