## Department of Molecular Biophysics and Biochemistry Departmental Colloquium

Lu Gan, PhD Department of Biological Sciences National University of Singapore

## Cryo-ET analysis of yeast nuclei in situ

Our lab studies the structural cell biology of nuclei, using yeast as a model and cryo-ET as our main tool. We have recently discovered that yeast nucleosomes are conformationally heterogeneous in situ and that they have meiotic nuclear structures that appear different from textbook models.

## Monday, September 20, 2021

Presented via Zoom 99149768814 Full instructions in department email 4:00 Seminar Host: Joe Howard

Supported by the Mrs. Hepsa Ely Silliman Memorial Fund
