

The **Yale Global Mental Health Program** provides educational opportunities and electives for the Yale community and mentorship and facilitated international experiences for residents.

“Film Screening: Hidden Pictures”

**Join us for a viewing and discussion of the new documentary
about Global Mental Health**

“From the director of one of the best films on mental illness, *Unlisted: A Story of Schizophrenia*, comes another winner! *Hidden Pictures* is a deeply moving film about the lives of people with mental illness in five countries, all of which share a narrative of stigma and obstacles to appropriate care. This is the first film which vividly portrays the universal experiences of mental illness and is a must see!.” - Dr. Vikram Patel, Professor at the London School of Tropical Medicine and Co-founder of The Movement For Global Mental Health
