

Sustainable Health Initiative Venture Development Program Overview

Eligibility

- Ventures must be working to address a problem in global health affecting low- and middle-income countries or under-resourced areas in the United States.
- Criteria for review include:
 - UN Sustainable Development Goal alignment
 - SHI mission alignment
 - Innovation
 - Program or product development
 - Team experience and core skills

Application Process

- We encourage teams at any stage of the venture development process to apply.
- [Please apply on the SHI website here.](#)

Review Process

- Applications will be reviewed by the Sustainable Health Initiative program staff and advisors as needed.
- Review committee members will review and score applications independently.
- Applications submitted past the deadline will not be considered.
- All application decisions are final.
