Presented by: Therapeutic Radiology

Therapeutic Radiology Grand Rounds:

Patterns of Failure and Implications for Management in Patients Undergoing CAR T-Cell Therapy

11/11/2021 9:00:00 AM-11/11/2021 10:00:00 AM | Medical Campus

Weekly grand rounds necessary and essential to the education mission of the department for trainees and peers at the faculty level on the latest developments as well as a forum for discussion on the latest cases to promote group input.

Texting code for today's session: 26732

Faculty:

Timothy Robinson, MD, PhD

Assistant Member, Moffitt Cancer Center; Assistant Professor, USF Morsani College of Medicine, Departments of Radiation Oncology & Bioinformatics; Section Head, Hematologic Malignancies & Cellular Therapeutics

Program Goal:

- 1 Understand the safety profile of radiation therapy in patients undergoing CAR T therapy
- 2 Understand the currently excepted roles of radiation therapy in R/R DLBCL in combination with CAR T therapy
- 3 Understand patterns of failure in R/R DLBCL following CAR T and its potential implications for therapy

Target Audience: Oncology

Financial Disclosure Information:

Timothy Robinson, MD, PhD faculty/planner for this educational activity is contracted researcher for Janssen Pharmaceuticals.

Henry S. Park, MD, MPH, faculty planner for this educational event is Honorarium Speaker for Bristol Myers Squibb.

All of the relevant financial relationships listed for these individuals have been mitigated.
