

Web Community Meeting

May 5, 2017

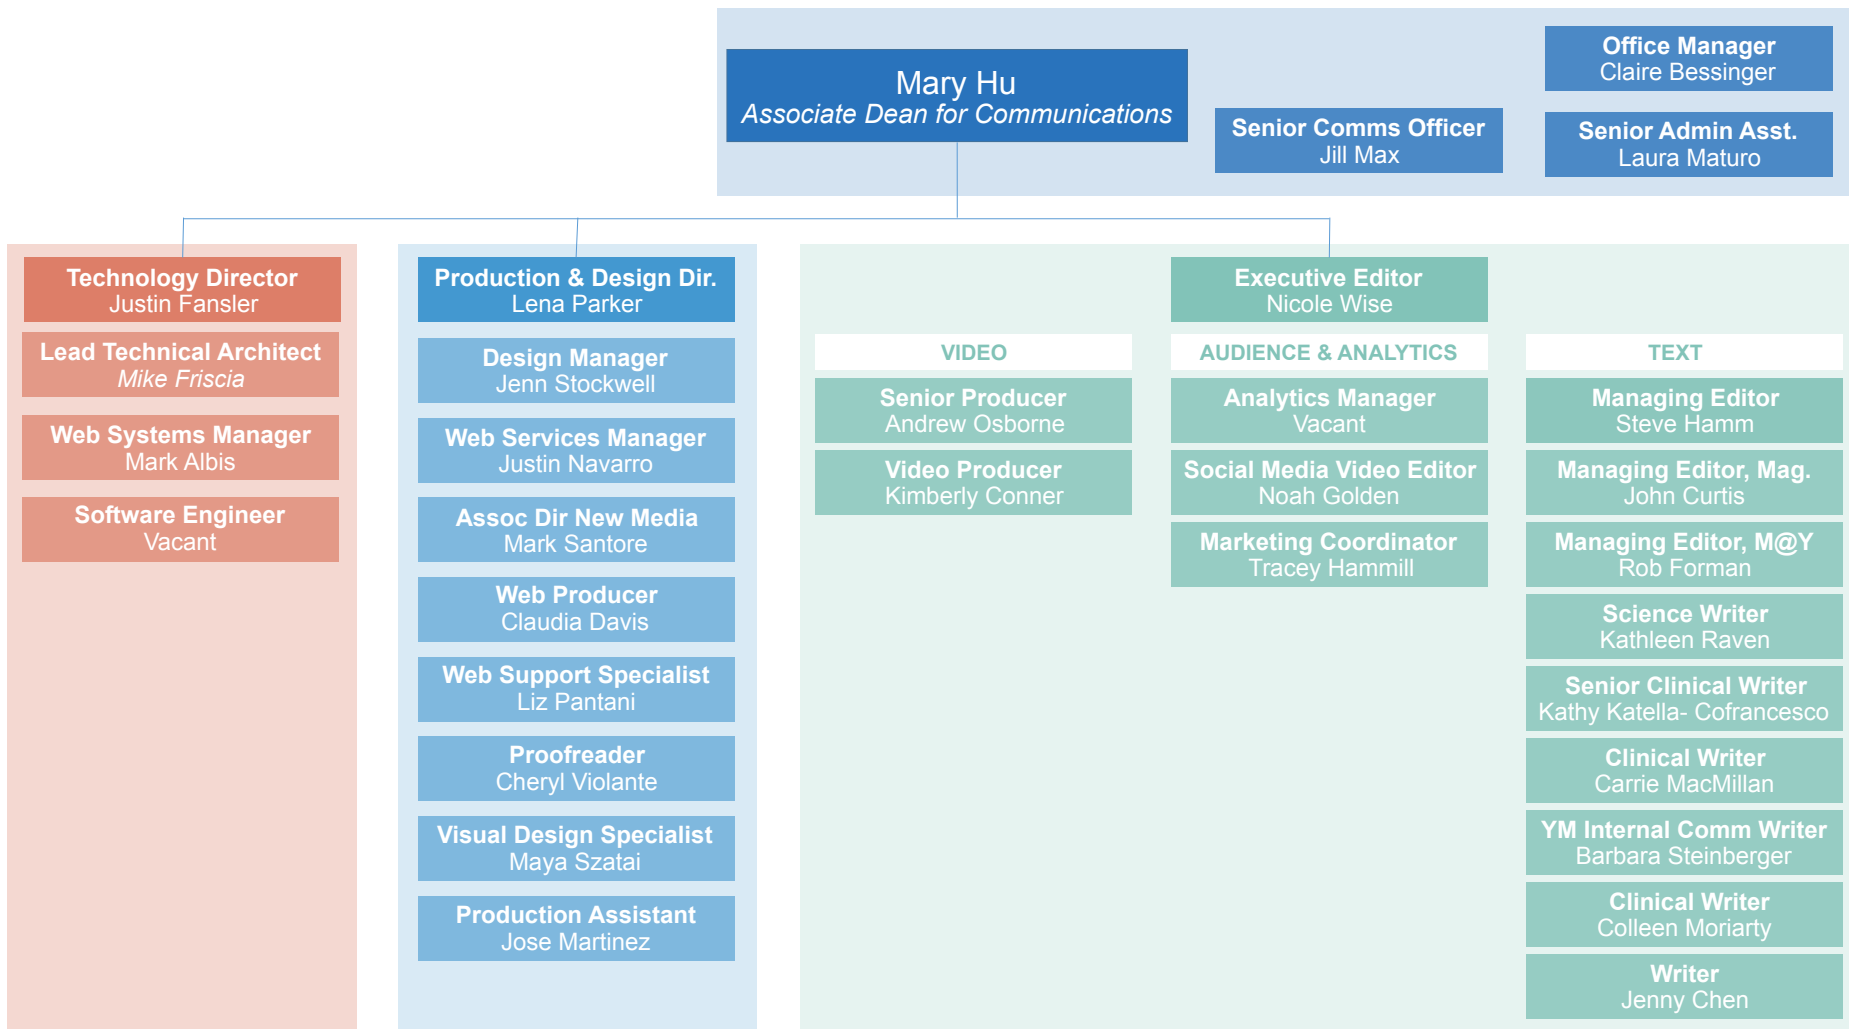

Today's Agenda

- What we've been doing for the last year
- New YSM Office of Communications
- Clinical content decommission project
- Form Builder to Qualtrics
- Event Calendar
- Media Library
- CV Builder Tool
- Web Accessibility

The past year...

Yale Medicine

New YSM Office of Communications

Form Builder to Qualtrics Transition

- Yale Qualtrics is replacing tools.medicine Form Builder with a significant number of advantages!
- Web Services is re-creating existing forms (that we are aware of) and transferring ownership as appropriate.
 - Support documentation is available on our site:
<http://web.yale.edu/support/applications/qualtrics/index.aspx>
 - Excellent Qualtrics support is also available here:
<https://www.qualtrics.com/support/>

Clinical Content Decommissioning Project

- The Yale Medicine project is off the ground!
- As the new face of all clinical care, Yale Medicine should be the sole source of patient-focused information.
- Why is it vitally important we do this?
- “Decommissioning” will take place as follows:
 - ‘75% Club’ first; which is further subdivided into low, medium, and high touch groups;
 - Unpublishing clinical content pages is the quickest and easiest step;
 - Reviewing and assessing the education/training and research content that remains is an opportunity to improve and re-focus your YSM site(s).

- Microbiology Graduate Program Seminar: "Toward Safe, Effective, and Long-Term Protection from HIV-1"** [Share](#) [Edit](#)
Created by Bonnie Lemelin 05/04/2017 [CONFIRMED](#)

Media Library

- tools.medicine.yale.edu/media is going away
- Step 1: Migrate existing videos into YSM Systems
- Step 2: Create new Media module in Profile System to add videos and audio to:
 - Events
 - News
 - SDL pages
 - Profiles

CV Builder

- Consists of several phases to ultimately create a CV Builder within the Profile System. Next steps:
 - Publications
 - Grants
 - Classes
 - Other missing data

Web Accessibility
