

Global Health Clinical Electives

Tuesday, September 18th, 2018

Lunch will be provided

12 noon to 1:00 p.m. BCMM 206/208

Learn more about YSM's Global Health Clinical Elective Opportunities!

You will be able to hear more about the Global Health Electives offered at our 10 sites internationally.

The Global Health Electives are designed to help students to:

- Identify differences in the methods of providing healthcare
- Appreciate the importance of and improve language skills
- Develop empathy and a sense of responsibility for the underserved population in our own community

Sponsored by the YSM Office of International Medical Student Education
