Evidence-Based Injury Prevention in the Primary Care and Emergency Department Settings

10/6/2021 12:00:00 PM–10/6/2021 1:00:00 PM | Medical Campus

The Pediatric Subspecialty Lecture series is a multidisciplinary series. The series includes one hour lectures and case presentations that update our pediatric subspecialist physicians, learners and other healthcare professionals on cutting edge biomedical sciences, clinical and educational practices, presenting this information in an understandable and clinically useful format, that informs the health care delivery and improves outcomes of children and adolescents. Pediatric Subspecialty lecture topics are varied.

Texting code for today’s session: 29694

Faculty:

Mark R. Zonfrillo, MD
Associate Professor of Emergency Medicine and Pediatrics
Associate Director, Master of Science in Population Medicine
Warren Alpert Medical School of Brown University
Hasbro Children’s Hospital

Program Goal:
1. To understand the historical and current burden of injury in children
2. To understand evidence-based theoretical models of injury prevention
3. To understand the evidence injury prevention strategies in the primary care and emergency department settings

Target Audience: Pediatrics

Financial Disclosure Information:
