

The Department of Pediatrics at the Yale School of Medicine is seeking an outstanding pediatrician to be the next Section Chief of Neurology.

SUMMARY

Yale has always been the dominant provider of specialized medical and surgical services in Connecticut and every employee understands and shares in the values of integrity, patient-centered respect, accountability, and compassion for others. The new Chief of Neurology will be a strong leader who is deeply committed to the three-fold mission of the Yale School of Medicine: clinical care, education, and research.

The Chief of Neurology is expected to be a known and respected academic leader, an active clinician in pediatrics, and an individual with a history of success in a leadership role in an academic medical center who leads with transparency and by example.

Administrative (17%)

- Reports directly to Clifford Bogue, MD, Chair, Department of Pediatrics at the Yale School of Medicine and Chief Medical Officer, Yale-New Haven Children's Hospital
- Assure and oversee the highest quality medical care to pediatric patients who are seen in the inpatient units, emergency departments and ambulatory centers throughout the Yale New Haven Children's Health System
- Recruit and retain physicians and cultivate existing and new programs of neurology
- Responsible for the implementation of departmental activities to assure the delivery of clinical services in a manner consistent with the needs of the patients and the hospital.
- Assure compliance with the YNHCH medical staff by-laws.
- Maintain effective liaison with the Chair and Vice Chairs of Pediatrics at the Yale School of Medicine.
- Ensure that members of the Section of Neurology are active participants in advancing the overarching standards and initiatives of YNHCH.
- Lead Section Faculty Meetings and participate in Departmental Leadership Meetings

Research & Scholarly Activities (variable)

- Dedicate time to an area of academic interest which will advance the career of the new Section Chief and also enrich the stature and expertise of the Department of Pediatrics
- Produce peer-reviewed scholarly works that are published and widely disseminated
- Maintain or develop an independently-funded research program (if on the Clinician-Scientist or Traditional Track).

Clinical and Education (variable)

- Be a master clinician by providing exemplary patient care
- Be a visible and significant participant in the direct teaching of medical students, pediatric residents, and Child Neurology residents in a clinical setting.

REQUIREMENTS

- Must have an M.D., M.D./Ph.D., DO, or foreign equivalent degree.
- Board certified in Pediatrics and Pediatrics-Neurology and/or Pediatrics-Neurodevelopmental Disabilities
- Possession of, or eligible for, a medical license and registration to prescribe controlled substances in the State of Connecticut

Interested applicants should submit their Curriculum Vitae and Cover Letter to Jennifer DeSantis, Chief of Staff, via email (jennifer.desantis@yale.edu).

This position is available immediately and will remain open until filled.

Yale University is an equal opportunity, affirmative action employer. Women, minorities, persons with disabilities and protected veterans are encouraged to apply.
