# COPD – Indignation and Hyperinflation

**03/23/2022 3:00 PM – 4:00 PM EST | Online**

Sixty years on from the Royal College of Physicians report “Smoking Kills”, action to end the tobacco epidemic still fails to meet the severity of the task, both in terms of prevention of lung disease and as a treatment of people who have lung disease. The failure to do this is intertwined with failure to address the burden of respiratory disease more generally.
