

Yale CCEH Rising Stars in Hematology Series

NIDDK U54 Sponsored Cooperative Centers of Excellence in Hematology

VIRTUAL SEMINAR SERIES VIA ZOOM **3rd Friday of the Month 12:00PM ET, 2022-2023**

September 16, 2022	Stephanie Xie, Ph.D., Princess Margaret Cancer Centre "Functional and multiome analysis of inflammatory stress response in human hematopoietic stem cells"
October 21, 2022	Sarah Ducamp, Ph.D., Boston Children's Hospital " <i>In vivo</i> CRISPR-CAS9 editing of <i>Alas2</i> , the gatekeeper of heme biosynthesis in erythroid cells"
November 18, 2022	Scott Peslak, M.D., Ph.D., University of Pennsylvania "Novel regulators of fetal hemoglobin in the treatment of sickle cell disease"
December 16, 2022	Nina Cabezas-Wallscheid, Ph.D., Max Planck Institute of Immunobiology and Epigenetics "Regulation of dormant hematopoietic stem cells"
January 20, 2023	Yoon-A Kang, Ph.D., Washington University School of Medicine "Myeloid lineage specification mechanisms at the top of the hematopoietic hierarchy"
February 17, 2023	Eric Pietras, Ph.D., University of Colorado "Addressing the inflammatory fire triangle in myeloid leukemogenesis and cancer"
March 17, 2023	Francesca Vinchi, Ph.D., New York Blood Center "Heme- and iron-mediated phenotypic and functional switching of macrophages"
April 21, 2023	Yongxin (Leon) Zhao, Ph.D., Carnegie Mellon University "Next generation expansion microscopy with universal anchoring strategy and its application in hematology"
May 19, 2023	Christina Termini, Ph.D., Fred Hutchinson Cancer Center "Leveraging proteoglycans for hematopoietic stem cell regeneration"

Topic: YCCEH Rising Stars in Hematology Series
Time: 12:00 pm – 1:00 pm dates mentioned above
