

Dust storms, socio-environmental factors, and COVID-19 in Puerto Rico

Dr. Pablo Méndez-Lázaro

Associate Professor - Environmental Health Department
University of Puerto Rico - Medical Sciences Campus

Dr. Méndez-Lázaro is one of the six scientists nominated by the Governor of Puerto Rico and confirmed by both the Senate and House of Representatives of Puerto Rico for the Executive Committee on Climate Change Adaptation Plan. He is currently PI and Co-PI on NASA research projects applying Earth Observing Data to research on public health and vulnerable populations. Most recently, he was invited by the US Global Change Research Program to serve as the Chapter Lead for the US Caribbean Chapter of the Fifth National Climate Assessment (NCA5).
