

Prime PI	Prime Project Title	Sponsor Name	Project start date	Project End Date	Total Spons Proj Noa Budget
Aoun-Barakat, Lydia	New England AIDS Education and Training Center	Health Resources and Services Administration/DHHS	07/01/2024	6/30/2025	\$475,000.
Azbel, Lyu	Innovations in Implementing Medications for Opioid Use Disorder for HIV Prevention in Probation Settings in Eastern Europe	National Institute on Drug Abuse/NIH/DHHS	09/30/2024	8/31/2029	\$161,151.
Baldassarri, Stephen	Phase III double-blind, randomized controlled trial of suvorexant versus placebo to treat insomnia in persons with opioid use disorder	National Institute on Drug Abuse/NIH/DHHS	05/15/2024	2/28/2027	\$574,787.
Cho, Gawon	Glymphatic Activity and Preclinical Alzheimer's Disease Pathogenesis	Alzheimer's Association	11/01/2024	10/31/2027	\$69,988.
Desir, Gary V	New target and new therapy for severe Covid-19 and viral hyperinflammation damage: renalase and renalase agonists	National Institutes of Health/DHHS	09/07/2023	8/31/2025	\$185,784.
Festa, Natalia	Investigating Nursing Home Emergency Preparedness for Environmental and Climatological Determinants of Resident Health	National Institute on Aging/NIH/DHHS	09/23/2024	8/31/2026	\$335,000.
Haynes, Norrisa A	Pressure Points Winn Career Development Award	Bristol-Myers Squibb Foundation, Inc.	10/16/2024	10/15/2027	\$240,000.
Herzog, Raimund I	Preventing hypoglycaemia through novel insulin-glucagon fusion proteins	Juvenile Diabetes Research Foundation Limited (JDRF UK)	08/01/2024	7/31/2025	\$140,290.
Hsieh Donroe, Evelyn	Building a Collaborative Research and Training Platform for HIV and Rheumatic and Musculoskeletal Diseases in Uganda	Fogarty International Center/NIH/DHHS	08/19/2024	6/30/2026	\$174,753.
Iwakiri, Yasuko	The role of lymphatics in cholestatic liver disease	National Institute of Diabetes and Digestive and Kidney Diseases/NIH/DHHS	09/01/2024	8/31/2028	\$692,243.
Kang, Insoo	Investigating the interface of NLRX1 and immune aging	National Institute on Aging/NIH/DHHS	09/01/2024	8/31/2029	\$351,750.
Khera, Rohan	The Transthyretin Amyloid Cardiomyopathy Early Detection with Artificial Intelligence (TRACE-AI) Network Study	BridgeBio Pharma, Inc.	09/09/2024	9/8/2025	\$442,051.
Khera, Rohan	ATF: Artificial intelligence (AI) guided screening of under-recognized cardiomyopathies at the point of care	Yale New Haven Health System	08/15/2024	9/15/2026	\$100,000.
Koff, Jonathan	ATF Proposal: Adult Cystic Fibrosis Center	Cystic Fibrosis Foundation (CFF)	07/01/2024	6/30/2025	\$238,872.
Kumar, Priti	Novel Humanized Mouse Models For Engraftment Of Tissue-Specific Human Macrophage Populations	Office of the Director, National Institutes of Health/NIH/DHHS	07/15/2024	6/30/2025	\$209,375.
Kwan, Jennifer	Personalized Prediction of Cardiovascular Outcomes through Machine Learning Analysis of Cardiac MRI and Genomics	National Heart, Lung, and Blood Institute/NIH/DHHS	09/17/2024	8/31/2025	\$753,813.
Lansky, Alexandra J	Use of the Impella ECP in Patients Undergoing an Elective or Urgent High-Risk Percutaneous Coronary Intervention	Abiomed, Inc.	07/15/2024	7/14/2029	\$135,740.
Lansky, Alexandra J	A prospective multi-center single arm study evaluating the safety and performance of the CLAAS® Device with ICE guided LAA Closure	Conformal Medical, Inc.	08/01/2024	7/31/2029	\$68,356.
Lansky, Alexandra J	Randomized Controlled Pivotal Trial of Autologous Bone Marrow Mononuclear Cells Using the CardiAMP Cell Therapy system in Patients with Ischemic Heart Failure II (CardiAMP Heart Failure Trial II)	BIOCARDIA, Inc.	09/23/2024	9/22/2029	\$372,169.
Lansky, Alexandra J	The CAPTIS Trial: An Evaluation of the Performance, Safety, and Efficacy of the CAPTIS® Embolic Protection System during Transcatheter Aortic Valve Replacement	Filterlex Medical Ltd	09/23/2024	9/22/2029	\$70,998.
Lansky, Alexandra J	POINT FORCE Registry: POst-Market CIInical Follow-up STudy oF the SerranatoR PTA Serration Balloon CathEter	Cagent Vascular	10/30/2024	10/29/2029	\$335,628.
Liu, Yi-Hwa	I-Corps: Translation potential of semiautomatic segmentation of cardiac tomography images for myocardial blood flow quantification	National Science Foundation	02/01/2024	4/30/2025	\$50,000.
Meyer, Jaimie P	Integrating PrEP Decision-Making into Contraceptive Counseling in Family Planning Clinics	National Institute of Mental Health/NIH/DHHS	09/06/2024	9/5/2027	\$777,440.
Miller, Edward J	Yale-HIC Cardiac Amyloidosis Symposia	Pfizer Inc., U.S. Pharmaceuticals Group	09/11/2024	9/10/2025	\$20,000.
Moledina, Dennis G	Rapid Diagnosis and Treatment Response Phenotyping of Immune Checkpoint Inhibitor-Associated Acute Interstitial Nephritis	National Institute of Diabetes and Digestive and Kidney Diseases/NIH/DHHS	08/10/2024	6/30/2028	\$755,970.
Nanna, Michael	Estimating the treatment effect of cardiovascular medications to modify the risk for future cognitive decline in older adults	National Institute on Aging/NIH/DHHS	09/15/2024	5/31/2029	\$243,000.
Qyang, Yibing	Non-Destructive Elasticity Characterization for Tissue Engineered Vascular Graft (TEVG)	American Heart Association	01/01/2024	12/31/2025	\$7,700.

Shaw, Albert C	ATF Proposal: HIPC Data Coordinating Center	National Institute of Allergy and Infectious Diseases/NIH/DHHS	04/01/2024	3/31/2025	\$140,500.
Shenoi, Sheela	Adapting mHealth to improve HIV outcomes among older people with HIV in Ukraine	Fogarty International Center/NIH/DHHS	09/15/2024	7/31/2026	\$215,966.
Smith, Marcella N	ComPASS Health Equity Research Hub at Yale	National Cancer Institute/NIH/DHHS	09/04/2024	8/31/2029	\$914,210.
Smith, Marcella N	Advancing Health Equity (AHE) Portfolio Monitoring and Evaluation Fellowship at Yale School of Medicine	Commonwealth Fund	10/01/2024	9/30/2025	\$199,985.
Wickersham, Jeffrey	Optimizing a Just-in-Time Adaptive Intervention to Increase Uptake of Chemsex Harm Reduction Services in MSM: A Micro-randomized Trial	National Institute on Drug Abuse/NIH/DHHS	07/15/2024	4/30/2025	\$282,750.
Yaggi, Klar	Phenotypes of Sleep Health among Black and Hispanic Women of Childbearing Age	National Heart, Lung, and Blood Institute/NIH/DHHS	03/15/2024	2/28/2025	\$94,728.
Zhang, Wei	Establishment of compliant tissue-engineered vascular graft for patients with connective tissue diseases	THE INES MANDL RESEARCH FOUNDATION	11/01/2024	10/31/2025	\$76,725.
