International HIV Research Seminar

“Developing and Implementing Data-Informed HIV Programming at Scale”

Timothy Mah, DSc

Deputy Division Chief

Office of HIV/AIDS

USAID

Friday, March 6, 2020

12:00 - 1:30 pm

135 College Street, Suite 200, Conference Room 202

New Haven, CT

Contact dini.harsono@yale.edu for questions or if you will be joining by video/telephone conference.

Sponsored by the Center for Interdisciplinary Research on AIDS (CIRA). CIRA is supported by National Institute of Mental Health Grant No. P30MH062294, Paul D. Cleary, Ph.D., Principal Investigator.

Timothy Mah, DSc

*Deputy Division Chief, Office of HIV/AIDS
USAID*

Dr. Timothy Mah currently serves as Deputy Division Chief in the Office of HIV/AIDS at USAID. In this role, Tim provides strategic assistance on programming to USAID field missions and PEPFAR country teams. Tim is responsible for synthesizing cutting edge research and best practices regarding HIV prevention, care and treatment and their application to USAID and partner programs. Tim was previously Director of the USAID Health Office in South Africa, overseeing one of the largest PEPFAR portfolios in the world.

Prior to joining USAID, Tim was a Research Fellow at the Harvard Center for Population and Development Studies and a Visiting Scholar at the University of Cape Town. Tim was also a Peace Corps Volunteer in The Gambia. He received his Master of Science and Doctor of Science degrees from the Harvard School of Public Health and his Bachelor of Arts from the University of Pennsylvania.

“Developing and Implementing Data-Informed HIV Programming at Scale”

The response to HIV has been a herculean effort across researchers, governments, funders, implementers, and communities globally and has shifted the collective thinking on how to implement interventions and services on a large scale across numerous countries while tailoring to local contexts. How can researchers ensure that their work contributes to on-the-ground change at a large scale? We'll examine the current status of several key HIV interventions and how the connections between research, policy and implementation can be maximized for the greatest impact.

Dr. Mah is available to meet 1-on-1 or in a small group during his visit to Yale and CIRA. Please email dini.harsono@yale.edu to schedule a meeting.
