Presented by: The Department of Pediatrics

Foundation for International Child Health Lecture, C. Davenport Cook Lectureship

Healing the Planet by Recognizing the Fundamental Sickness of Colonialism

3/30/2022 12:00:00 PM – 3/30/2022 1:00:00 PM | Medical Campus

The Pediatric Subspecialty Lecture series is a multidisciplinary series. The series includes one hour lectures and case presentations that update our pediatric subspecialist physicians, learners and other healthcare professionals on cutting edge biomedical sciences, clinical and educational practices, presenting this information in an understandable and clinically useful format, that informs the health care delivery and improves outcomes of children and adolescents. Pediatric Subspecialty lecture topics are varied.

Texting code for today’s session: 29719

Faculty:
Kinari Webb, MD
Founder
Health In Harmony

Program Goal:
1 Understanding human health affects ecosystem health
2 Understanding ecosystem health affects human health
3 Seeing that the climate crisis and biodiversity crisis are intertwined with the justice crisis of colonialism
4 Those closest to a challenge know best what the solutions are
