

# YALE SUPERFUND RESEARCH CENTER

## *Seminar Series*

### ***“Environmental Pollution and Cardiometabolic Disease: Contribution of Volatile Organic Compounds”***

---

#### **Sanjay Srivastava, PhD**

Professor

Division of Environmental Medicine

Director

Univ. of Louisville Superfund Research Center

Date: Wednesday, October 12, 2022,

Time: 12-12:50 pm EST

Location: 47 College Street, 106B

ZOOM: <https://yale.zoom.us/j/91769314885>

Meeting ID: 91769314885

**Dr. Srivastava** is a Distinguished University Scholar and Professor of Medicine at the University of Louisville, Louisville, KY. He is also the Director of the University of Louisville Superfund Research Center. Dr. Srivastava has served as a Chair or a member on more than 50 NIH Study Sections and as a member on the editorial board of Circulation Research. The research focus of Dr. Srivastava's group has been to elucidate the cellular and molecular mechanisms by which endogenous and environmental carbonyl compounds affect endothelial function, vascular inflammation and atherogenesis.
