

**January 23, 2013**

**Rescheduled due to Hurricane Sandy**  
**Transformational US Healthcare Opportunities in the Decade Ahead**

Location: Anlyan Center Auditorium (TAC), 300 Cedar Street, New Haven  
4:00 pm Program  
5:00 pm Networking and Wine Reception

A senior faculty fellow at Yale School of Management, Richard N. Foster is an emeritus director of McKinsey & Company, Inc. where he was director and senior partner. While at McKinsey he founded several practices including the technology and innovation practice, the healthcare practice and the private equity practice. A best selling author, Dr. Foster's research interests are in the relationships between capital formation, innovation, and regulation. Dr. Foster has written two bestselling books: *Innovation: The Attacker's Advantage* (1986) and *Creative Destruction* (2001), as well as several dozen articles in research and popular journals.

**Richard N. Foster, Ph. D.,** *Senior Faculty Fellow, Yale School of Management; emeritus director, McKinsey & Company, Inc.; Managing Partner, Millbrook Management Group; Venture Partner, Lux Capital Groupneural Institute*

**January 30, 2013**

**C8 Sciences: Cognition Cross-Training for Children and Adults**

Location: Anlyan Center Auditorium (TAC), 300 Cedar Street, New Haven  
4:00 pm Program  
5:00 pm Networking and Wine Reception

C8 Sciences develops and markets neuroscience-based cognition assessment and development products that have the potential to solve some of the most significant problems affecting children and the aged. C8 is the only company to offer integrated computer and physical exercises - "cognition cross-training." Its products are based on proprietary research developed at Yale University by Dr. Bruce Wexler, and the company was recently awarded a prestigious \$3M Director's Office Grant by the National Institutes of Health to study the use of C8Kids for treating ADHD. This grant is reserved for research programs that have the potential for a paradigm change in US healthcare.

**Bruce E. Wexler, M.D.,** *Professor Emeritus of Psychiatry and Senior Research Scientist, Yale Medical School; Director of the Neurocognitive Research Laboratory, Connecticut Mental Health Center*

**Ken Coleman,** *President and Co-Founder*

**February 26, 2013**

**Yale Entrepreneurial Institute (YEI)**  
**Three Recent Student-Led Start-Ups in Healthcare**

Location: Anlyan Center Auditorium (TAC), 300 Cedar Street, New Haven  
4 pm Presentation  
5 pm Networking and Wine Reception

For more than 6 years, The Yale Entrepreneurial Institute has helped Yale students develop entrepreneurial skills by launching businesses. Recently the program expanded to include start ups that involve Yale intellectual property and faculty.

At BioHaven, students, faculty and mentors will share their experiences with YEI using real life examples of how the program has connected students to Connecticut business people -- many of whom has participated as mentors, advisors and investors.

**Moderator: James G. Boyle, PH.D.,** *Director, Yale Entrepreneurial Institute*

**April 30, 2013**

**Jackson Laboratory for Genomic Medicine followed by a conversation with UCONN and Yale**

Location: Hope Building, Room 216, 315 Cedar Street, New Haven  
4:00 pm Program  
5:00 pm Networking and Wine Reception

The State of Connecticut has made a \$291 million dollar bet that Jackson Laboratory for Genomic Medicine (JAX) will help Connecticut assume a position of global leadership in personalized medicine. By combining JAX's strength in genetic technologies with the clinical and scientific expertise of University of Connecticut and Yale, both the State and the research community are hoping to see accelerated development of medical treatments and tests tailored to patient's specific genetic make up.

**Edison Liu, M.D.,** *President and CEO Jackson Laboratories*

**Marc LaLande, Ph.D.,** *Professor and Chairman of the Department of Genetics and Developmental Biology, and Associate Dean for Research Planning and Coordination at the University of Connecticut School of Medicine*

**Moderator: Susan Froshauer, Ph.D.,** *Director of the UConn Tech-Knowledge Portal; former President and CEO, Rib-X Pharmaceuticals*

The Yale BioHaven Entrepreneurship Series features presentations designed to showcase regionally developed life science technologies that have progressed along the path to commercialization. Speakers at the BioHaven events represent both the scientific and business side of the enterprises.

The programs focus on key success factors of each company, scientific or technological advantage, business model, and lessons learned in starting and developing the business. The series also provides social networking opportunities for scientists/researchers in the Yale community.
