## MEASUREMENT-BASED CARE

MBC

## MBC basics SPOTLIGHT ON SHARE

providers.

REPORT

Report the measure data to the client. Explain what the data Mean.

Patient-provider collaboration results in higher patient satisfaction with treatment and with their

Patient-reported outcome measures help support

a shared language between you and the clients

Even if you don't collect and capture the measure

yourself, you can still share a recent score from

you work with, which enhances communication.

another provider's visit in your encounter.

COLLECT patient-reported outcome measures regularly as part of care.

> SHARE by using the process Report, Verify, Educate, and Capture.

> > ĠŢĮ

by having a meaningful conversation about the scores; use them to inform your treatment plan.

Transparent sharing of data enhances the patientclinician relationship.

## DISCUSS

Ask if the score matches the client's subjective experience. Explore discrepancies.

CAPTURE

Capture data in your note

and in your electronic

medical record as

applicable.

Use this dialogue to develop a shared language for discussing goals, symptoms, and progress.

## EDUCATE

Provide education on the measure &/or individual items. Clarify any confusion.

Your data are now available for you to track the client's progress and to gauge outcomes on the program level. It will also benefit other providers working with the client (as applicable based on your setting).

Link the scores to the client's goals and plan of care.

"It helped orient the sessions, helped to guide the sessions, helped to make decisions ..." - Mental Health Provider
