# "Anogenital Distance: A link between early androgen exposure and future reproductive function"

*This activity is no corporate support for this activity* This course will fulfill the licensure requirement set forth by the State of Connecticut

# Thursday, October 2, 2014 - 4:00PM

# Brady Auditorium, Room B131 Lauder Hall

### LEARNING OBJECTIVES:

At the conclusion of this talk, the attendees will be able to:

- 1. How to measure anogenital distance (AGD) in male and female infants.
- 2. The sensitivity of AGD to androgens in the fetal environment.
- 3. The clinical correlates of AGD in infants and adults.

### NEEDS ASSESSMENT:

- 1. Understand the importance of anogenital distance.
- 2. Appreciate the clinical correlates of shortened male anogenital distance.

### ACCREDITATION:

The Yale School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

#### CME CREDIT:

The Yale School of Medicine designates this educational activity for 1 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

#### FACULTY DISCLOSURES:

It is the policy of Yale School of Medicine, Continuing Medical Education, to ensure balance, independence, objectivity and scientific rigor in all its educational programs. All faculty participating as speakers in these programs are required to disclose any relevant financial relationship(s) they (or spouse or partner) have with a commercial interest that benefits the individual in any financial amount that has occurred within the past 12 months; and the opportunity to affect the content of CME about the products or services of the commercial interests. The Center for Continuing Medical Education will ensure that any conflicts of interest are resolved before the educational activity occurs.
