

# Cancer Metabolism Symposium

This inaugural event marks the launch of the **Cancer Metabolism Initiative (CAMI)**, which aims to bring together investigators from across the campus to shape the future of cancer metabolism. This symposium is ideal for both seasoned investigators and newcomers to the field.

## Keynote Speaker:

**Matthew Vander Heiden, MD, PhD**

Lester Wolfe Professor of Molecular Biology, Professor of Biology and  
Director, Koch Institute for Integrative Cancer Research at MIT

## Speaker Lineup

### Session I:

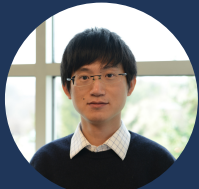

**Metabolic Disease  
and Cancer**

Rachel J. Perry, PhD

### Session II :

**Metabolic Interaction in  
the Tumor  
Microenvironment**

Sidi Chen, PhD

### Session III :

**Targeting Cell  
Metabolism in Cancer**

Jiyeon Kim, PhD

### Session IV:

**Cancer Metabolism  
Techniques, Resources  
and Initiatives**

Yang Liu, PhD

Yansheng Liu, PhD

Mandar Muzumdar, MD

Ranjit S. Bindra, MD, PhD

Ania Jastreboff, MD, PhD

John Wysolmerski, MD

Carlos  
Fernandez-Hernando, PhD

Bubu Banini, MD, PhD

Richard Kibbey, MD, PhD

**November 1st, 2023  
8 am - 6 pm**
