

Grand Rounds

Tuesday, January 11 at 12pm via Zoom

"A NET Gain: Establishing the Yale Neuroendocrine Tumor Program"

Pamela Kunz, MD

Associate Professor of Internal Medicine (Medical Oncology);
Director, Center for Gastrointestinal Cancers at Smilow Cancer
Hospital and Yale Cancer Center; Chief, GI Medical Oncology

Needs: There have been many recent advances in treatments for NETs and in diagnostics including imaging and grading. Multidisciplinary care is essential for patients with NETs, and we will review when to involve expert consultants from other specialties including Endocrinology, Gastroenterology, Cardiology, and Nuclear Medicine

Objectives: Learn about recently FDA approved treatments for NETs and understand recent changes in grading and nomenclature.

"Merkel Cell Carcinoma: Past, Present, and Future Directives"

Kelly Olino, MD, FACS

Assistant Professor of Surgery (Oncology)

Needs: MCC is a rare but increasingly diagnosed cancer. Attention focused on the diagnosis, treatment, and future research directives is warranted.

Objectives: Describe the pathophysiology and treatment trends for MCC and the increasing incidence. Detail future opportunities for research.
