Advances in Pain Management CME Event: Course Objective
This course will provide specialized education on optimal treatment for pain management. Physicians from the Shoreline Interventional Pain Center who actively practice at Lawrence + Memorial Hospital will provide leading-edge education for physicians in the region, including an overview of current diagnosis and management of patients with pain management issues.

Presenters
Sudhir Kadian, MD
“A Multidisciplinary Approach to the Challenges in Pain Management”

Honghui Feng, MD
“Navigating Through Chronic Pain Management Channels”

Learning Objectives
At the end of this lecture, the learner will be able to:
- Identify the barriers to optimal pain management
- Outline the management of “difficult patients” and describe how “difficult patients” vary from the provider’s expectations
- Explain why all drug-seeking behaviors/misuse are not illegitimate
- Characterize the impact of chronic pain on our society
- Compare the options for chronic pain management.

RSVP to:
Ann-Marie Michonski-Booth no later than August 30, 2019
Ann-Marie.Michonski-Booth@lmhosp.org or cell 860-204-6167

Hors d’oeuvres and drinks will be served.
